Detailed Action

1. The following is an examiner's statement of reasons for allowance:

The Applicant amended the independent claims 16, 26, and 31, and dependent claims 28-29; canceled claim 27; included a Terminal Disclaimer; and presented arguments in favor of allowance of the claims according to the "Amendment in Response" received June 12, 2006. The Applicant demonstrated to the Examiner's satisfaction that the 35 U.S.C. 103(a) rejection over the reference of Bateman et al. (6,794,641 B2) is not applicable since the Bateman et al. priority date (May 30, 2002) turns out to be later than the priority date of the current application (February 22, 2002). Thus, together with the now amended independent claims now requiring a pulser for packaging the selected ions, the 35 U.S.C. 103(a) rejection is no longer applicable.

Terminal Disclaimer

2. The terminal disclaimer received on June 12, 2006 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,693,276 B2 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

3. Claims 16-26 and 28-35 are allowed in view of the submission of the Terminal Disclaimer.
